

Tang Yang

Data Analyst | Client Analyst | Retail Analyst

✉ tangy5009@gmail.com ☎ +86 175-1212-7530 📍 Shanghai, CN

Summary

Seeking to pivot from e-commerce and manufacturing data analytics into the FMCG retail Market Research vertical. Open to Analyst-level roles, leveraging prior BI, automation, and client-delivery experience for Retail Vertical engagements.

Education

East China Normal University (ECNU)	Master of Engineering (Part-time, in progress) in Software Engineering
Software Engineering	September 2023 - June 2026

Yangtze University	Bachelor of Engineering in Communications Engineering
Communications Engineering	September 2016 - June 2022

Experience

Tianlan Technology (E-commerce KOL Marketing Agency, FMCG clients)	January 2024 - November 2025
Data Analyst	

Delivered analytics and strategic advisory to FMCG F&B brand clients and their retail channels.

- Data Governance / Unified Metrics: Built end-to-end Market Research data pipeline (collection → cleansing → aggregation → presentation) and versioned metric dictionary, achieving 99.9% data consistency across brand and retail clients; reduced team alignment and client review time by 40%.
- Routine Report Delivery: Deployed Tableau Server T+1 monitoring dashboards with email-alert closed loop and RPA + Tableau Prep Builder ETL pipeline; delivered weekly Routine Reports to 5+ brand clients covering GMV / ROI / CTR KPIs with 100% on-time delivery rate and 60% lower report latency.
- Attribution & Business Review: Decomposed creative formats and KOL attributes; led quarterly Business Review presentations and authored 'Ad Content Optimization Guide', driving CTR +20% / CAC -15% on priority campaigns.
- User-Path Insights & Actionable Recommendations: Combined behavioral-path and funnel analysis to identify high-drop nodes; delivered actionable recommendations that drove conversion-page redesign and significantly reduced critical-path bounce rate.
- Closed-Loop / Client Success: Codified 'data → insight → action → review' client-success cadence with post-campaign templates, boosting team diagnostic efficiency by 35% and improving client retention satisfaction.

Huawei	July 2022 - January 2024
Data Analyst	

Smart-manufacturing data analytics with Python / RPA automation, Tableau dashboards, and cross-functional enablement.

- Scripting & Automation: Developed daily test-data automation pipelines in Python covering 8+ device models, ensuring batch stability and reducing manual intervention by 80%.
- RPA Data Capture: Implemented YingDao RPA for source-data auto-capture and validation with anomaly back-fill and alerting closed loop, raising data-capture accuracy to 99.5% and cutting manual-entry errors by 90%.
- Quality & Progress Dashboards: Built Tableau quality and progress dashboards supporting production planning and quality tracking; reduced anomaly localization from hours to minutes.
- Efficiency: Coupled automation with dashboards to streamline data flow; team rose from #3 to #1 in department-wide automation ranking.
- Enablement & Presentation: Delivered 10+ training and presentation sessions to production and management teams, codified user manuals and metric definitions, cutting new-hire onboarding time by 50%.

Projects

E-commerce New-Product Analysis Report — FMCG Healthy-Snack Launch (Market Research)

November 2024 - December 2024

Market Research × Consumer Insights × Product Strategy

- **Category Positioning (Market Research):** Conducted market-research scan of the dried-fruit category across market size × growth × consumer segments; selected dried blueberry as launch SKU with differentiated 'eye-care' functional positioning matched to a digital-eye-strain audience.
- **Industry Benchmark:** Benchmarked dried-fruit and blueberry segments across size / growth / competitive landscape, quantifying category opportunity window for product strategy and market entry.
- **Consumer Insights & Product Strategy:** Mapped user personas and audience segmentation from market data to uncover latent 'eye-care / healthy-snacking' demand; translated consumer pain points (low sugar, no additives, single-serve packaging, eye-care function) into a differentiated FMCG healthy-snack product strategy aligned with modern health-conscious consumers.
- **Retail Channel Plan:** Designed an online + offline omni-channel rollout plan around the 'eye-care' message, completing the full FMCG new-product loop: Market Research → Category Positioning → Consumer Insights → Product Strategy → Retail Channel.
- **Deliverable & Presentation:** Authored a 5-module PPT report as the core Business Review deliverable for client decision-making.

E-commerce Seeding Analytics Dashboard — FMCG Client Effectiveness Monitoring (BI Platform)

July 2025 - November 2025

Routine Report × Client Self-Service BI

- **Report Governance:** Restructured Routine Report into a 'Goal — Process — Result' three-tier format with key conclusions and anomalies surfaced first; reduced client reading time by 50%.
- **Auto-Refresh:** Implemented ETL + scheduling for incremental sync, lifting data freshness from T+1 to T+0 / 10-minute latency and reducing report turnaround by 60%.
- **Client Self-Service BI:** Built a four-module intelligent BI dashboard (KPI — Visualization — Evaluation — Recommendation) delivering self-service analytics to brand and retail clients; raised client self-query rate to 70%.
- **Anomaly Monitoring:** Established alert mechanisms for conversion-count and conversion-rate KPIs with fast response and root-cause localization; issued ~4 insight briefs / month to clients.

E-commerce Ad Content Strategy Insights — FMCG Investment Efficiency Advisory

July 2025 - November 2025

Market Benchmark × Consumer Insights × Business Review

- **Competitive Benchmark (Market Research):** Conducted same-spec market-research comparison across seeding effectiveness, cost efficiency, and spend between our brand and competitors, demonstrating significantly higher scale and conversion.
- **KOL Filtering:** Built an efficiency-quadrant model from unit-conversion cost and K-value, layered with GMV-contribution to identify high-yield KOLs for differentiated investment; achieved +10% audience hit-rate.
- **Consumer Insights:** Drilled into top-KOL video attributes and tags, distilling content style and audience preferences into a Consumer Insights report for client delivery.
- **Strategic Review (Business Review):** Delivered quarterly Business Review PPT to clients with optimization recommendations across script / visuals / engagement / conversion path, achieving CTR +20% / CAC −15% post-launch.

Profiles
